iThink 365 Agentic AI Discovery Professional Service

Turn AI curiosity into real wins with high-value AI agent opportunities and a clear path to action.

A Clear AI Roadmap in Just 15 Days

Organisations using this approach have identified £500,000+ in potential savings, achieved 40% improvements in customer service experience, uncovered use cases with three-month ROI, and freed up hundreds of hours per year, including £141,000 annual savings in finance operations and a 43% improvement in IT service desk satisfaction, all before committing to build or rollout.

Turn Your AI Curiosity into Real Wins

Discover real opportunities, explore high-value AI agent ideas, and walk away with a clear, ROI-backed plan you can act on straight away.

See what AI agents can actually deliver for your organisation, backed by practical examples, fast insights, and a simple roadmap to move forward.

What You Walk Away With

Most organisations know AI agents are powerful but they don't know where they'll deliver the biggest impact. This service removes the guesswork. It gives leaders fast insights, real examples, practical next steps and a clear business case, all wrapped into a short, focused engagement.

“Investment company saved 480 hours per year (£12,000) when producing monthly investment fund report summaries using an Agentic AI Agent”

“Discover new ideas, spot real opportunities and walk away with a clear plan you can act on right away”
